

Coldean Extra Care Flats - a first for the city

The Foundation Stone has just been laid for the 37 new Extra Care flats in Beatty Avenue, Coldean.

The special ceremony was attended by local councillors, members of the Coldean Residents Association and representatives from the Hanover Housing Association, who are working in partnership with the council to deliver this £3.5 million Government funded scheme.

The flats should be completed next Spring, benefiting both the local community and residents with a new restaurant, coffee shop and health & treatment rooms.

Even before it is finished, the scheme has attracted international attention. Coldean Extra Care is being assessed for a place in a new international design guide which will promote the very best in older persons housing schemes across Europe. This two year project is part funded by the EU with Brighton & Hove City Council representing the UK.
