Report on a professional conference

United Healthcare and Social Institute is celebrating the 25th anniversary of its establishment. Experts have organized a two-day conference on the occasion of the jubilee. Among the specialists two greatest professors in the field of caring for the elderly, Ferge Zsuzsa academician, and Iván László, Chairman of the Socialpolitical Society, take part in the lectures.

United Healthcare and Social Institut recalled the history of the last 25 years in the frame of a two-day conference. The organization dealing with care of elderly and handicepped people invited the social specialists of the region to the ceremonial hall of the town hall.

The main topics of the lectures were the expected changes of the social law, the children's poverty, the old-aged's problems and the „Welhops” welfare residence programme.

This programme aims to modernize and coordinate the care for old people.

Panker Mihály pointed out that 2005 brought new tasks for the institute.

„2005 was the year of the transformation, this gives the frame of the whole 25 years, as we have changed the name of our institution from United Social Institute to United Healthcare and Social Institute. We got new task: to organize the basic health care of Győr cooperated with the family doctors, dentists, school doctors and health visitors.”

The following day participiants could become acquainted with the project called „ Among ourselves for ourselves”. It studies the dialogue and possible cooperation between the older and young age groups. Inquirers could see an exhibition on the corridors of the town hall.
